🎓 EDUCATION

B.Eng in Computer Science and Technology

Harbin Institute of Technology
09/2025 – Present
Harbin, Heilongjiang, China

Higher Secondary Certificate

Bangladesh Air Force Shaheen College
Dhaka
02/2023 – 08/2024 | Dhaka, Bangladesh

Secondary School Certificate

Ideal School and College, Banasree Branch
01/2021 – 08/2022 | Dhaka, Bangladesh

🌐 LANGUAGES

Bengali ● ● ● ● ●
Native

English ● ● ● ● ●
CEFR C1 (Duolingo 140/160)

Chinese ● ● ● ● ●
Learning daily communications

📄 SUMMARY

Computer Science undergraduate at Harbin Institute of Technology with interests in machine learning, reinforcement learning, and LLM-based intelligent systems. Experienced in full-stack development, research-oriented projects, and cross-cultural collaboration.

🧠 RESEARCH EXPERIENCE

Undergraduate Research Assistant — Paradigms & Action Representations in RL (LocusRL)

Harbin Institute of Technology

07/2026 – Present | Harbin, Heilongjiang, China

- Engineering a reproducible evaluation infrastructure to benchmark LLM agents against traditional RL baselines (CFR, MCTS, NFSP) across multiple game environments.
- Designing deterministic "Action-as-Text" token serialization schemas and categorical ensembling methods to minimize structural parsing errors and optimize inference stability.
- Developing profiling modules to track training GPU-hours and sample efficiency, generating Pareto analysis plots.

🧑‍💻 SKILLS

Machine Learning & Artificial Intelligence ● ● ● ● ●

- Python, NumPy, TensorFlow, Neural Networks, Regression & Classification Models, Reinforcement Learning Concepts, SFT Methodology

Full-stack development & Programming ● ● ● ● ●

- MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML, CSS, JavaScript, C, Git/GitHub

Research Tools & Concepts ● ● ● ● ●

- Jupyter Notebook, LoRA/LLM concepts, Experimentation & Evaluation Pipelines, OpenSpiel, PettingZoo

🏆 HONORS & CERTIFICATIONS

Supervised Machine Learning: Regression and Classification

DeepLearning.AI / Stanford on Coursera

Runner-up — International Web Development Competition

Ghorwa Presents 1st International Virtual Tech Showdown

Complete Web Development Course Completion

Programming Hero

Completed as top 15% of the class.

CLUB & VOLUNTEERING EXPERIENCE

HIT International University Curling AI Association

Member of International Cooperation Committee

01/2026 – Present

Harbin, Heilongjiang, China

BAF Shaheen College Dhaka Writers' Club

Head of IT, Executive Committee-08

12/2023 – 11/2024 | Dhaka, Bangladesh

BAF Shaheen College Dhaka Air Scout Group

Rover Scout

2023 – 2024 | Dhaka, Bangladesh

Volunteering Activities

PROJECTS

Game Marketplace Web Application (MERN)

Full-Stack E-commerce Platform | MongoDB, Express, React, Node.js

- Developed a full-stack marketplace platform using MongoDB, Express.js, React.js, and Node.js
- Implemented product browsing, shopping cart, checkout flow, and admin dashboard
- Integrated REST APIs and responsive frontend design
- [Source code](#)

Logistic Regression Classifier

Machine Learning | Python

- Built a binary classification model using Python and logistic regression
- Explored decision boundaries and evaluation techniques
- [Source Code](#)

Linear Regression Model

Machine Learning | Python

- Implemented regression models and visualized prediction behavior using Python
- Evaluated model performance using standard metrics
- [Source Code](#)
